OBJECTIVE

Information Technology student with strong knowledge of Data Structures, Algorithms, OOP, and DBMS. Experienced in developing full-stack applications using MERN Stack, with hands-on exposure to REST APIs, Linux, and AWS. I have good problem-solving skills, curiosity to learn new technologies, and develop scalable software solutions while contributing to real-world open-source projects.

EDUCATION

Bachelor of Technology in Information Technology (CGPA – 8.5 till 5th Sem)

2023 – 2027

Jaipur Engineering College and Research Center

Jaipur, Rajasthan

PROJECTS

Pharma Pulse- From Sales Tracking To Excel In One Click | M.E.R.N, Excel.js, SMTP Server

[GitHub](#) | [Live-link](#)

- Developed a MERN-based pharmaceutical sales tracking system with JWT authentication and REST APIs, enabling secure and scalable management of sales and billing data.
- Automated Excel report generation and email delivery using ExcelJS and Nodemailer, reducing manual reporting effort by 80% and streamlining reporting workflows.

Nidhi-Setu | JavaScript, Node.js, Express, React, Supabase, Face-Api.js, Twilio, Tawk

[GitHub](#) | [Live-link](#)

- Developed a beneficiary verification platform using React, Node.js, Express.js, and Supabase, enabling secure identity validation through AI-powered face verification and reducing fraudulent fund claims.
- Designed and optimized 10+ REST APIs while integrating Twilio and Supabase services, automating beneficiary workflows, reducing manual effort by 70%, and improving API response performance by 30%.

Portfolio Website | JavaScript, Nodejs, Express, React

[GitHub](#) | [Live-link](#)

- Developed and deployed a responsive portfolio website on a custom domain, showcasing 10+ projects and certifications while achieving 90+ Lighthouse performance scores through SEO and performance optimization.
- Built backend communication workflows using Node.js, Express.js, and Nodemailer, enabling automated contact form submissions and seamless real-time email interactions across devices.

TECHNICAL SKILLS

- Core Fundamentals:** Data Structures & Algorithms, O.O.P, DBMS, Operating Systems, Computer Networks.
- Languages:** JavaScript, Python, C, C++, SQL.
- Backend And APIs:** Node.js, Express.js, REST API, JWT Authentication, Microservices Architecture.
- Frontend:** React.js, HTML, CSS, Tailwind CSS, Bootstrap.
- Databases:** MongoDB, MySQL, Supabase.
- Tools & Testing:** Postman, API Testing, Debugging.
- Cloud & DevOps:** AWS, Vercel, Render, Linux, Git, GitHub.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate** [Certificate Link](#)
- AWS Certified Cloud Practitioner** [Certificate Link](#)
- Nvidia Deep Learning Institute Certificate** [Certificate Link](#)
- Oracle Data Platform 2025 Certified Foundations Associate** [Certificate Link](#)
- Oracle AI Foundation Associate** [Certificate Link](#)
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate** [Certificate Link](#)

EXPERIENCE

- CEI INTERN @ CELEBAL TECHNOLOGIES – May 2026 – Present**
Worked on industry-focused Data Science projects involving real-world datasets, practical problem-solving.
- Backend Developer – Vyap-Go**
Contributed to backend API development and workflow automation for billing and inventory management.
- Freelance Developer – BuildBazaarX**
Built and deployed an e-commerce platform for a startup client with responsive UI and backend integration.

ACHIEVEMENTS

- Advanced to the second round of the All-India Hackathon by Cognizant, ranking among the top 3 teams of college.
- Achieved top 10 position in IIC 2.0, An international hackathon organized by MANIPAL JAIPUR.
- Solved 150+ Data Structures and Algorithms problems on LeetCode and coding platforms.
